C. A. Ramsey, Government Naturalization Examiner, spent Saturday in examining records in Circuit Clerk Heifner's office. His purpose was to look up the records of certain applicants for registration. The government is apparently preparing to tighten up on naturalization proceedings in the future. If such is the case, then it will be as it should. The system that has been in vogue in the past, of permitting foreigners to come into this country, regardless of whether or not they become citizens, and even permitting them to continue to speak their native language exclusively, should be obliterated. Foreigners already here should be required to adopt the English language, and no more should be permitted to come to this country.

He has come in for a considerable amount of "kidding" from his fellow county office-holders, but seems to stand up well under such trying ordeal.

The Times sincerely joins Mr. and Mrs. Crowder's friends in wishing them a long and happy wedded life.
